# EKÖMUL & EKÖLITE **EMULSIFIERS**

#### Distilled Monoglycerides & Mono and Di-glycerides MG-Series

Manufactured from natural vegetable-based oils and fats. Functions as a starch complexing agent (e.g, in bread, pasta, and potato powder), waterin-oil stabiliser and emulsifier (e.g. in table margarine) and aerating agent (e.g. in ice cream, imitation cream and bakery gel formulations). This series of products can also reduce the stickiness in chewing gums and improve texture and structure of extruded products, such as extruded snacks or cereal. RSPO certified and non-palm products available.

- Ekömul MG 95 HP
- Ekömul MG 95 HO
- Ekömul MG 90 HO FLOW 3FP
- Ekömul MG 95 PS
- Ekömul MG 60 HP
- Ekömul MG 45 HP Ekömul MG 95 HV
- Ekömul MG 45 HO
- Ekömul MG 95 HVX
- Ekömul MG 90 HVX FLOW 3FP
- Ekömul MG 95 HR
- Ekömul MG 95 HRX
- Ekömul MG 90 S Ekömul MG 90 SX
- Ekömul MG 90 SP

#### **Distilled Monoglycerides XTND-Series**

Manufactured from natural vegetable-based oils and fats. Functions as an excellent starch complexing agent (e.g. in bread, pasta and potato powder) with good dispersibility properties and aerating agent (e.g. in ice cream and imitation cream). RSPO certified and non-palm products available.

- Ekömul XTND 95 P
- Ekömul XTND 95 D
- Ekömul XTND 90 O
- Ekömul XTND 90 R

### Self-Emulsifying Mono and Di-glycerides FASE-Series

Manufactured from natural vegetable-based oils and fats with a coemulsifier to enhance emulsification properties. Functions as a quick forming emulsifier and improves emulsification properties, especially in dairy beverages and non-dairy applications. It is also used in personal care applications. RSPO certified and non-palm products available.

- Ekömul FASE 30 HP ■ Fkömul FASF 45 HP
- Ekömul FASE 80 HP ■ Fkömul FASF 80 HPX
- **Emulsifier Blends MYXT-Series**

Co-generated emulsifier blends from natural vegetable-based triglycerides and organic fatty acids. Designed for a diverse range of functionalities including dairy and non-dairy applications such as ice creams and UHT recombined milk, water-in-oil stabiliser and crystalliser in margarines and spreads. RSPO certified products available.

- Ekömul MYXT 272 XTI
- Ekömul MYXT 370 XTI
- Ekömul MYXT 220 KRI
- Ekömul MYXT 250 MGI
- Ekömul MYXT 373 PGI FLOW
- Fkömul MYXT 260 PF
- Ekomul MYXT 280 LCI
- Ekomul MYXT 245 LCI
- Ekomul MYXT 230 PE
- Ekomul MYXT 101 PEI

# EKÖLITE™

#### **Polyglycerol Poyricinoleate PGPR Series**

Manufactured from fatty acids of castor oils. Functions as yield modifier in Chocolate and Compound Chocolate. Functions as emulsion stabilizer and fat reduction in reduced fat spread.

Ekölite PGPR 90

#### Sorbitan Esters SE-Series

Manufactured from vegetable-based organic fatty acids. Functions as anti crystallisers in cooking oils and as anti bloom agents in compound chocolate and confectionary fats, including Cocoa Butter Substitutes, Cocoa Butter Replacers and Cocoa Butter Equivalents, Ekölite SE 60 S aids in hydration of Instant Active Dry Yeast. RSPO certified products available.

- Ekölite SE 65 S
- Ekölite SE 60 S
- Ekölite SE 65 L

#### Fat Crystallisers KRYS-Series

Manufactured from natural vegetable-based oils and fats. Stabilises products with high oil content, provides resistance to oil separation and improves mouthfeel (e.g. peanut butter, wafer creams, savoury pastes and spreads). RSPO certified and non-palm products available.

- Ekölite KRYS 01 S Ekölite KRYS 05 R Ekölite KRYS 02 S Ekölite KRYS 07 M Ekölite KRYS 03 S Ekölite KRYS 08 M Ekölite KRYS 04 V Ekölite KRYS 11 S
- **Lactic Acid Esters LM Series**

Manufactured from natural vegetable-based oils and fats and lactic acid. Functions as aerating agent and enhancer in applications such as cake margarine, high ratio shortening, as well as dairy and non-dairy aerated products such as whipping cream and topping powder. RSPO certified products available.

Ekölite LM 20 P Ekölite LM 20 P FLOW

### Propylene Glycol Esters PG-Series & Polyglycerol **Esters PE-Series**

Manufactured from vegetable-based organic fatty acids. Functions as aerating agent (e.g. imitation cream, shortening and whipped topping). Improves plasticity and whipping properties in margarine and shortening. Improves aeration of cake batter and crumb structure in bakery applications. RSPO certified and non-palm products available.

- Ekölite PG 95 P Ekölite PE 05 P Ekölite PG 95 S Ekölite PE 04 P Ekölite PG 95 R Ekölite PE 03 P Ekölite PE 80 O Ekölite PE 02 P
- Sodium Stearoyl Lactylates SL-Series & Calcium Stearoyl Lactylates CL-Series

Manufactured from vegetable-based organic fatty acids and lactic acid. Functions as a strengthener (e.g. in dough), volume improver and softener/anti-staling (e.g. in bread), aerating agent and foam stabiliser (e.g. in cream and dessert products). Options with anti-caking agents are available. RSPO certified and non-palm products available.

Ekölite SL 70 S Ekölite SL 70 R Ekölite SL 68 S Ekölite SL 68 R Ekölite SL 70 V Ekölite CL 68 S100 Ekölite SL 68 V Ekölite CL 72 S100

#### Citric Acid Esters of Mono- and Diglycerides CM - Series

Manufactured from natural vegetable based oils and fats. Functions as a hydrophilic type of emulsifier in meat applications and Anti-Spattering agent in frying margarines.

Ekölite CM 12

#### **Crumbs Softener NEXT Series**

Integrated emulsifier blends derived from natural vegetable based ingredients. Functions as crumb softener in bread. RSPO certified and non-palm products available.

Ekömul NEXT 01 P Ekömul NEXT 01 R

# **APPLICATION GUIDE**

## **Bakery Applications**

Application	Function	Solutions					
Breads, buns, rolls & improver	Crumb softener, shelf life extender, anti staling, improves crumb structure and texture, aids dough stability and volume	Ekömul™ MG series Ekömul™ XTND series Ekömul™ NEXT series Ekölite™ SL series Ekölite™ CL series					
Cakes & cakes mixes	Improve cake batter performance, crumb structure, aeration stability, extends shelf life, anti staling	Ekömul™ MG series Ekömul™ XTND series Ekölite™ SL series Ekömul™ MYXT series					
Cake emulsifier	Imparts aeration capabalities, batter emulsification, improves cake volume, imparts fine crumb structure	Ekömul™ MG series					
	Extends shelf life, improves volume, fine crumb structure	Ekölite™ PG series Ekölite™ PE series Ekölite™ SE series					
Biscuits,cookies & crackers	Fat dispersion improver Improves texture (tenderness) Aeration & emulsion stabiliser	Ekömul™ MG series Ekömul™ SL series Ekömul™ XTND series					
Instant active dry yeast	Protect yeast cell, aids yeast cell hydration	Ekölite™ SE series					
Pasta & noodles	Improves palatability and texture, improves sheeting, firmness and freeze thaw stabiliser, anti-sticking, provides resistance to overcooking	Ekömul™ MG series Ekömul™ XTND series					

## **Dairy Applications**

Application	Function	Solutions
Desserts	Improves whipping properties for aerated desserts, texture, taste and shelf life	Ekömul™ MG series Ekömul™ FASE series Ekölite™ PG series Ekölite™ SL series
Creams & Cream Liqueurs	Alcohol-dairy emulsion stabiliser, air incorporation improver, freeze-thaw stabiliser, foam stabiliser, fat emulsion stabiliser	Ekömul™ MG series Ekömul™ FASE series Ekölite™ SL series Ekölite™ LM series
Ice Cream & Soft Serves	Improves aeration (overrun), controls churning, provides melting resistance, improves texture and shelf life	Ekömul™ MG series Ekömul™ MYXT series Ekölite™ LM series
Non Dairy Creamers	Aids emulsion creation and stability during processing, improves powder dispersion and provides a rich and creamy mouthfeel	Ekömul™ MG series Ekömul™ FASE series Ekölite™ SL series
Recombined Milk & Soymilk	Improves emulsion stability, extending shelf life and creating a smooth mouthfeel	Ekömul™ MG series Ekömul™ FASE series

## Oils & Fats Applications

Oiling out resistance Ekölite™KRYS series  Margerines & Improves whipping properties, Ekömul™ MG series	Application	Function	Solutions
Spreads  improver, foam aeration stabiliser, emulsion stabiliser, texture improver, fat reduction and mouthfeel enhancer  Oiling out resistance  Margerines & Shortening  Improves whipping properties, improves plasticity, facilities emuslification, facilities ideal rate of crystallisation  Reduces spattering  Reduce sandiness in margerine  Ekölite™ PG series Ekölite™ MRG series Ekölite™ PE series Ekölite™ PE series Ekölite™ PG series Ekölite™ PG series Ekölite™ PG series Ekölite™ CM series  Reduces spattering  Reduces spattering  Reduces sandiness in margerine  Ekölite™ CM series  Ekölite™ SE series  Ekölite™ SE series  Ekölite™ SE series			Ekölite™ SE series
Shortening improves plasticity, facilities emuslification, facilities ideal rate of crystallisation  Reduces spattering  Reduce sandiness in margerine  Cooking Oil Prevents clouding and crystallisation in palm olein  Ekôlite™ PE series Ekôlite™ PG series Ekôlite™ RRYS series Ekôlite™ KRYS series Ekôlite™ CM series  Ekôlite™ SE series  Ekôlite™ SE series		improver, foam aeration stabiliser, emulsion stabiliser, texture improver, fat reduction and mouthfeel enhancer	Ekömul™ FASE series Ekölite™ PE series Ekölite™ PG series Ekölite™ PGPR series
Reduce sandiness in margerine Ekölite™ SE series  Cooking Oil Prevents clouding and Ekölite™ SE series  crystallisation in palm olein	9	improves plasticity, facilities emuslification, facilities ideal rate	Ekömul™ MYXT series Ekölite™ PE series Ekölite™ PG series Ekölite™ KRYS series
Cooking Oil Prevents clouding and Ekölite™ SE series crystallisation in palm olein		Reduces spattering	Ekölite™ CM series
crystallisation in palm olein		Reduce sandiness in margerine	Ekὃlite™ SE series
	Cooking Oil	crystallisation in palm olein	Ekölite™ SE series

## **Confectionery Applications**

Application	Function	Solutions
Caramel	Anti sticking and fat dispersant improver	Ekômul™ MG series
Chocolates	Anti bloom agent and gloss enhancer Yield modifier	Ekölite™ SE series Ekölite™ PGPR series
Compound coatings	Gloss retention and fat dispersion improver, fat crystallisation improver	Ekömul™ MG series Ekölite™ SE series Ekölite™KRYS series
Gums & chewing gums	Softener of gum base,promotes lubricity and anti sticking	Ekὃmul™ MG series

## **Nutritional Applications**

Application	Function	Solutions
Infant nutrition	Provides body, dispersion and emulsion stabilisation	Ekömul™ MG series
Sports nutrition	Flavour dispersant and stabiliser, vitamin oil solubility improver, clouding agent	Ekömul™ MG series Ekömul™ FASE series

## Flour Applications

Application	Function	Solutions
Flour Premixes	Improves crumb structure and texture, extends shelf life(antistaling) and increase volume	Ekömul™ MG series Ekömul™ XTND series Ekölite™ SL series Ekölite™ CL series

## KNOWLEDGE & DISCOVERY APPLICATION CENTRE

## **Technology Enablement Esterification Pilot Plant & Bakery, Oils & Fats and Confectionery Laboratorium**

Located in Westport Klang, Malaysia, our Esterification Pilot Plant & K&D Application Centre supports development of functional, cost effective emulsifiers in a variety of food applications.

We support customers in designing ideal solutions to their formulation challenges, with analytical measurements and unveiling new product ideas.

## **Application Support**

## **Analytical Capabilities**

Our analytical equipment allows better understanding of product texture particle dispersion, emulsion stabilisation, measurement & observation of fat globule distribution and viscosity of emulsion systems in both intermediate and end products.

## KNOWLEDGE & DISCOVERY APPLICATION CENTRE

## **Dairy Pilot Plant**

Futura Ingredients formulates new, functional and cost effective Emulsifiers and Texturising Systems for dairy and non-dairy applications, for instance Ice Creams, liquid milk, cream, creamers and acidified milk products.

A fully equipped Dairy Pilot Plant facilitates product development in a variety of dairy and non-dairy applications to fully engage and support customers technical inquiries.

We delight in engaging our customers to develop customised solutions. Come speak to us to find out how we can support your business needs.

#### **APPLICATIONS**

## Ice Cream

- Hard Pack
- Extruded
- Soft Serve
- Novelties
- Ice Lollies

### **Liquid Milk**

- White Milk
- Soy Milk
- Flavoured Milk
- Havourea IVI
- Chocolate MilkPlant Protein Bevarages
- \_\_\_\_\_

#### **Creams**

- Processed Thick Cream
  - Whipping Cream

# Acidified Dairy Products

Acidified Milk Beverage

Yoghurt

#### Disclaimer

The information and recommendations contained herein are to the best of our knowledge reliable. However, nothing herein is to be construed as a warranty of representation in respect of safety in use, suitability, efficacy or otherwise including freedom from patent infringement. Users should conduct their own tests to determine the suitability of our product for their own specific purposes and the legal status for their intended use of the product.

## **BRAND ASSURANCE**

**Delighting Our Customers** sums up our service philosophy that starts from product conception & development, right through to product delivery to our customers.

Our business is anchored upon a strategic alignment to key raw materials, manufacturing excellence using the word-class technology, meeting stringent accreditation in food safety and sustainability.

We create and produce high quality, competitive products with proven performance in a wide variety of application fields.

Our service philosophy also extends into Research & Development, where we have the flexibility to design customised solutions to meet our customers' formulation challenges.

Let us delight you and support your sustainable business growth.
